About AISA

Located in the heart of the embassy district on the island of the capital city, the American International School in Abu Dhabi (AISA) was established in 1995 to provide a world-class education based on American standards and an international curriculum. Starting with our 4 year-olds in KG1 up to our graduates in Grade 12, AISA is a family centered, community school that is proud of its diversity and student-centered approach to education.

Our Mission

Providing an international curriculum in a safe, multicultural environment that inspires globally-minded, critical thinkers to take responsibility for their society.

Our Vision

Being global providers of future leaders ready to conquer life's challenges and grasp its opportunities.

Our Values

AISA students are IB learners. From a young age, they strive to be:

-  Inquirers
-  Knowledgeable
-  Thinkers
-  Communicators
-  Principled
-  Open-minded
-  Risk-takers
-  Balanced
-  Caring
-  Reflective

Our Teachers

Our international teaching team from North America, Europe and beyond, is fully qualified with a majority holding Master's degrees and/or advanced certifications and endorsements. Kind and caring, they focus on educating the whole-child, with an individualized approach, fostering imaginative learning through play in the early years and engaging inquiry-based learning in all grades.

Intercultural Learning at AISA

To enhance the lives of others, AISA embraces our local and international community by promoting cross-cultural recognition, acceptance, and celebration. We honor individual values while appreciating diverse perspectives. Our Early Years Program (KG1 & KG2) offer our youngest learners a play based education using the PYP framework and American standards in our purpose built Early Childhood Education center. Families are invited to come and be a part of it all and to experience first hand the love of learning that is felt on our campus. Inventive play and community spaces, a diverse student body, high adult to student ratio and an inclusive family environment are just a few of the elements that make our early years an am(AISA)ing place to be!

Our Curriculum

Educating students aged 4-18 years old, AISA delivers a full Kindergarten to Grade 12, standards-based American curriculum, as well as the International Baccalaureate® (IB) Primary Years Programme (PYP) and Diploma Programme (DP). Our High School students select from two graduation pathways, IBDP or the American College Preparatory High School Diploma. AISA graduates are prepared for entry into leading, highly competitive universities in the United States, Canada, Europe and around the globe..

What is IB PYP?

The PYP offers an inquiry-based, transdisciplinary curriculum framework that builds conceptual understanding. It is a student-centered approach to education for children aged 4-12. It reflects the best of educational research, thought leadership and experience derived from IB World Schools.

The PYP focuses on the development of the whole child as an inquirer, both in school and in the world beyond. The PYP offers a transformative experience for students, teachers and whole school communities and delivers excellent outcomes by providing an education that is engaging, relevant, challenging and significant.

IB PYP Subjects:

- | | |
|--------------------|--------------------------------|
| Physical Education | Mathematics |
| Music/Art | Science |
| Arabic/Islamic | Social Studies/Moral Education |
| STEM Exploration | Literacy |

Academic Achievement

AISA uses NWEA's Measures of Academic Progress (MAP) tests in math, reading, language, and science to monitor our students progress. (MAP) results consistently show AISA students meeting and exceeding regional and international norm averages.
