& English)

OUR MISSION

To make learning more comprehensive & easier with creative teaching & technologically advanced methods.

OUR METHODS

LIVE INTERACTIVE CLASSES

ENGAGING CONTENT

FOCUSED TUTORING

ONE-ON-ONE STUDENT TEACHER INTERACTION

OUR SPECIALTY

TAUGHT BY TOP 1% EDUCATORS

AI-BASED ASSESSMENT

HYPER-PERSONALIZED LEARNING ENVIRONMENT

INSTANT DOUBT CLARIFICATION

WHAT KEEPS US GOING AT TURITO

Student Queries

Thousands of students reach out to our Tutors with doubts about colleges, applications, and credential building.

"Being of assistance to these young souls is satisfying"
- Our Professionals

Student Achievements

Students we have tutored have seen a visible improvement in their grades and scores.

"Building highly valued student profiles that stand out"

Consistent Addition of New Features

We are always exploring new ways to making learning interactive and informative at the same time.

TWO TEACHER MODEL

The Two Teacher Model helps the students clarify doubts instantly. The model ensures that two teachers will be present in the live session at all times. While one teacher teaches the live classes, the other one focuses that the doubts of all students are clarified in the session.

AI/ML-BASED STUDENT ASSESSMENT FOR ADAPTIVE LEARNING

Turito offers Quality Analysis of student's performance with the help of Machine Learning and Artificial Intelligence, Personalized recommendations of Questions, Videos, and Study Materials based on captured metrics of weekly tests.

GAMIFICATION TO MAKE LEARNING FUN

Educational Quizzes will be made available to the students at all times to make learning fun and engaging. Contests held periodically can help them gain rewards while simultaneously improving knowledge.

THE TURITO PROMISE

#LetsJourneyTogether

HYPER PERSONALIZED LEARNING

Students resort to rote learning methods without paying much heed to their learning styles. Turito believes that every child is different, so we build a customized learning plan that suits their styles and abilities. This accelerates the learning curve and leads to progress of students. Turito creates personalized tests with the use of Artificial Intelligence. The tests are based on Students' Strengths & Weaknesses making learning more personal than ever.

INSTANT DOUBT CLEARING (24X7 SUPPORT THROUGH THE PANEL)

With two-teacher model, students can clear their doubts instantly.

THE PARENT APP

It provides Parents the complete visibility into their child's progress and performance, along with insights and recommendations to empower them in improving the child's learning process. The app provides real-time updates about lecture attendance, daily practice tests, and mock test results with detailed attempt analysis to help parents stay on top of the child's day-to-day activities on the Turito - Live Learning App.

KEY FEATURES:

Calendar view of lectures and tests scheduled for every day, along with daily learning time and resource completion tracker.

Progress Summary analysis based on specific subjects and resource types with graphical representation.

Performance Summary of Mock Tests and Daily Practice Tests along with subject-based analysis

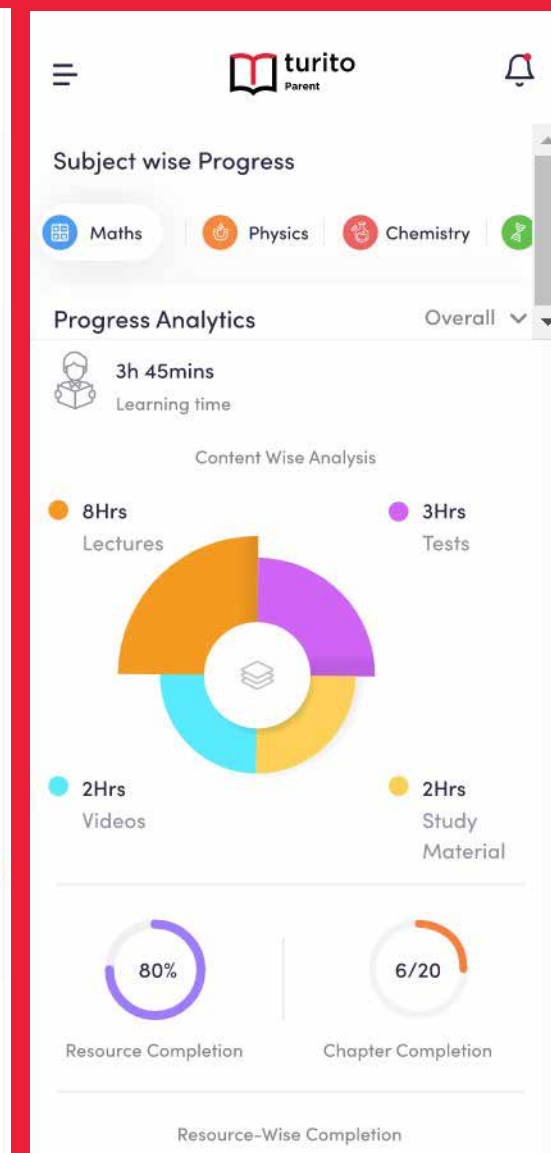

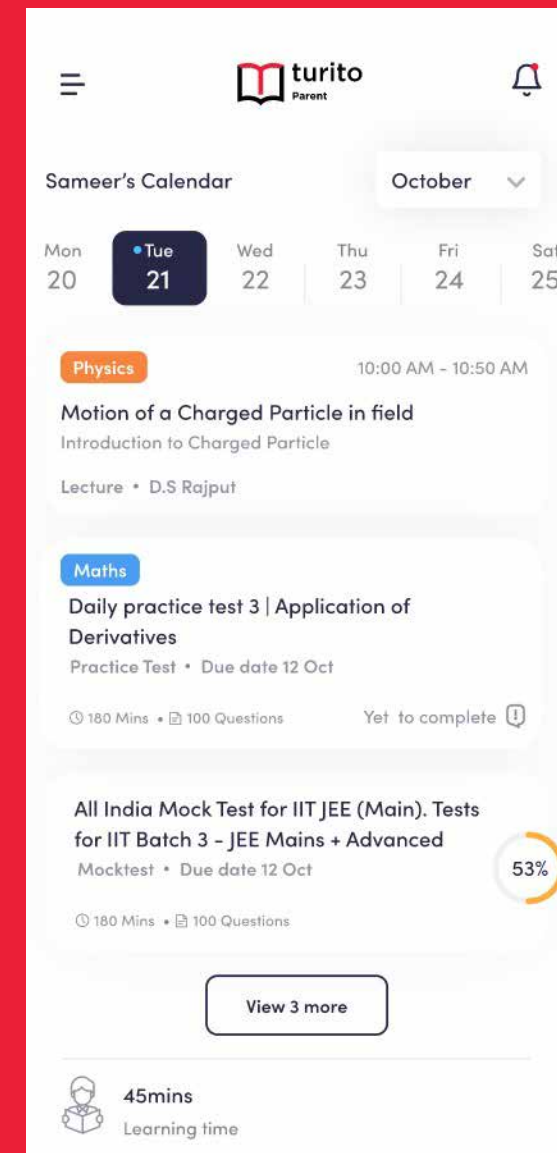

Day wise activity tracker of recently learned concepts and recently taken tests, with in-depth attempt analysis and solutions.

Insights identifying strong and weak chapters in every subject, along with recommendations suggesting actions to be taken to improve in weak chapters.

Tutor Connect to reach out to counsellors and teachers regarding any concerns related to the child's progress and performance.

Class features – 60mins 2 classes per week
