

Working with children is your passion?

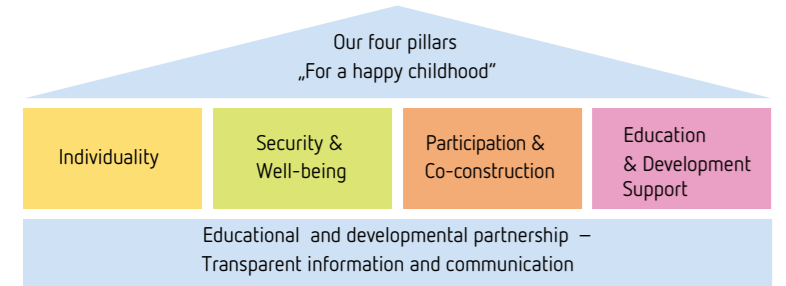

Take your chance!

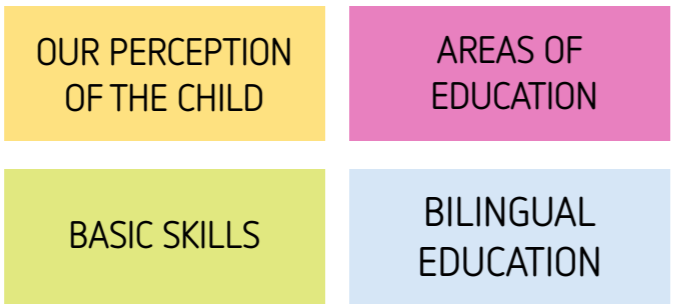

WHO WE ARE

The Wichtel Akademie München GmbH is the leading private operator of childcare and kindergarten centres in Munich, currently with 16 locations. Our guiding principle 'For a happy childhood' is based on a sophisticated, child-oriented pedagogy, which combines the approaches of Montessori, Reggio and Emmi Pikler in a modern, holistic, innovative concept. As the child's first educational institution, we have set ourselves the task of promoting the development of the children in a prepared, stimulating environment characterised by security and well-being, and to prepare them as best as possible for the life before them. Our bilingual education concept based on the immersion principle plays a vital role in achieving this goal. In our superbly equipped facilities, we create the conditions for the children to find ideal opportunities to explore their environment independently and creatively.

As we continue to grow and develop, we are currently looking for educators to join and support our team.

- Professional experience in working with groups of infants and children aged 3 – 6 years
- Passion for working with children and interest in child care and education
- Being familiar with theories and practices of child development and early childhood education
- Excellent communication skills

Meet your new colleagues!

watch Jimmy in action

YOUR ASSIGNMENT

- You will implement our modern paedagogical concept in our centres and participate in the continuing development of the concept with our leadership team
- You develop projects which build upon our paedagogical columns and implement them together with the children
- You accompany the children through their development and support their individual targeted needs
- You communicate openly and professionally with our parents and build a partnership to support the child's development

Sounds like you? Then we are looking forward to getting to know you!
