“

It is a school which awakens a joy in creative expression and knowledge. A school where the best possible care makes every child feel they are as important as the school is to them.

”

Message From The Managing Trustee

What makes a school extraordinary? It is the teachers who love teaching their subjects and the pupils who adore learning them. It is a school which awakens a joy in creative expression and knowledge. A school where the best possible care makes every child feel they are as important as the school is to them. It is my devotion towards nurturing future young leaders to ensure that everything mentioned here is at SSVM School of Excellence. As the Managing Trustee of SSVM, I look forward to welcoming you and your family to our school. This handout will give you only a snapshot of the ample opportunities present for your child to flourish intellectually, physically and emotionally.

Our ethos revolves around cultivating an excellence mindset, where a student is actively encouraged to develop characteristics for wanting to be the best and to do what it takes to honor that decision. When a child is determined to be the best, his or her mentality will start producing excellent thoughts. Thoughts of self-confidence, faith, and success. Therefore, excellence is something intentional, and our students are immersed in this idea which improves the quality of their future and gets them to their greatest heights.

As a parent myself, I know how challenging it can be to choose the right school for your child, but if you choose SSVM School of Excellence, we know it will be the beginning of a beautiful journey of self-discovery and excellence with our school. We look forward to showing you what makes our school special and we warmly invite you to be a part of our future.

Manimekalai Mohan,
Managing Trustee & Correspondent

School of Excellence is **much more than** a school providing a meaningful and purposeful educational experience which pushes the boundaries of our students.

Persuade students to take ownership of their learning and help them progress further.

CHAMPIONING EXCELLENCE

SSVM Institutions is one of the highest achieving schools in the country. This academic excellence comes from setting high standards, vigorously pursuing them and nurturing an enthusiasm for learning.

In the right learning environment, a child is capable of accomplishing much more than what traditional education offers. School of Excellence is much more than a school. Our exceptional teachers are subject specialists, who share their intellectual wisdom and passion for learning with students. They provide a meaningful and purposeful educational experience which pushes the boundaries of our students. Whether it is setting challenging targets for academic excellence or sporting competitions; imparting a sense of belief that anything is possible builds a habit in students. Such a student who is self-aware and understands achievement, endeavours to **champion excellence everyday**.

**'ON
STRAIGHT
ON'**

Is not just our SSVM motto,
It's our Strife for Excellence.

A LOVE FOR LEARNING

Creative Learning Experience

A lifetime passion for learning is what we aim to foster in our students at School of Excellence. Time and again, students find it demanding to transform complex concepts into a real-world application with just traditional teaching methods.

Understanding concepts with ease and fun in a creative teaching style that is smart and innovative is what SSVN School of Excellence aims to fulfill. A creative learning style at class will persuade students to take ownership of their learning and help them progress further. For instance, students will have the experience of learning History by composing their own song or by creating a skit.

Children can enjoy learning everyday by generating something creative for new and difficult topics in various subjects.

In another example, neutrons and electrons in Science can become their friends as the junior students begin narrating stories to their classmates. Math will be entertaining when they play games that challenge their analytical thinking.

Well-acclaimed activities such as Lego Serious Play, Teach & Learn, Innovative Brainstorming, Edutainment, and Improve can deliberately give them opportunities to think effectively and efficiently within time constraints. While they relish their fun learning experience, teachers at the School of Excellence will ensure that the students can excel in their examinations by providing prodigious answers and insightful presentations.

A Co-opetitive Environment

Our talented faculty facilitate a collaborative team approach for students by simultaneously allowing them to experience an independent competitive environment.

For example, students can be tasked to form group discussions and consecutively given competitive assignments to bring out their individuality in an unbiased manner. Our students will be good team players as they learn from others in their team and inspire each other through a transfer of skills and knowledge.

Exploring Beyond the Classroom

Our classrooms can be an inspiring place for learning but there is a world beyond them, and we believe that our children should be given an opportunity to explore this world.

We regularly look out for learning opportunities outside the classroom by taking children for yearly educational tours within India and countries abroad. These tours give students an opportunity to discover new places, diverse cultures, new people, and themselves.

In addition, they will also have relevant field trips to provide them with a better understanding of class concepts. Our school's highly organized adventures help nurture our students academically, emotionally, and physically.

AN ENGAGING CURRICULUM

The curriculum at School of Excellence delivers exceptional learning opportunities through excellent and inventive teaching methods. While following the Central Board of Secondary Education (CBSE) curriculum, our school faculty will keep up with its current innovations.

By tailoring the practical learning experiences according to the needs of courses, we ensure students have a broad understanding of the concepts. Rote learning is discouraged, and students are prepared to comprehend the depth of understanding required to achieve the highest possible grades for exams.

CO-CURRICULAR ACTIVITIES

Sports and Physical Wellbeing

With extensive outdoor facilities and a variety of sports activities, students will experience a flourishing sporting life here at School of Excellence. We believe that our students must have the opportunity to engage in a competitive and recreational sport as well as cultivate the true spirit of sportsmanship. From the most talented to the least confident, we see to it that each child realizes his/her potential for the benefit of competitive sport. Our dedicated and talented coaching team will emphasize the importance of supporting and encouraging each student. Students can choose from a wide array of sport including Tennis, Archery, Football, Basketball and many others.

Swimming

Lawn Tennis

Archery

Taekwondo

Silambam

Skating

Basket Ball

Chess

Table Tennis

Yoga

Celebrating The Arts

SSVM School of Excellence has abundant musical opportunities – drama, music, and dance are hugely important, as much as traditional academic pursuits. Every individual pupil is encouraged to enrich and heighten the creative aspect of their mind and to be highly involved in the performing arts. Many student ensembles and groups will participate in performance opportunities both within school concerts and competitions where they can truly shine and find their artistic identity.

Our Four Frontiers

At our School of Excellence, we emphasize on qualities that foster leadership and a 'winning attitude' mentality. We make them touch the peak in everything they do. We teach everyone to be responsible leaders. All the four houses are unique yet have a common ideology in their titles to provide a sense of equality & distinctiveness.

Mt. Trailblazers

Mt. Pioneers

Mt. Trendsetters

Mt. Forerunners

CURRICULAR ACTIVITIES

Culinary

Dramatic

Classical Dance

Western Dance

Arts & Craft

EDUCATIONAL TECHNOLOGY

Our school has a safe and state-of-the-art provision of technology for students to keep track of their day-to-day lessons, activities, and assignments. The digital tabs they use will have an authoritative control and monitoring while facilitating an entertaining experience with the fast-paced technological world that kids adapt to instantly.

AN ENTREPRENEURIAL MINDSET

Individual goals and high aspirations challenge every child; cultivating a resilient leader and entrepreneurial spirit is essential for every student to become victorious leaders in any future path they decide to venture on. Our children are consistently observant with a capacity to generate phenomenal ideas. At School of Excellence, we want them to be more open to creativity by expanding their imagination. Our extraordinary teachers will help students hone their creative skills and prepare them to convert those ideas into rewarding solutions through experiential learning and academic excellence.

Our Four Entrepreneurial Attributes

Helping Discovering Passion

We strive towards making every child passionate about learning in a way that would make them look forward to school days.

Creating Problem Solvers

In life, every child is posed with challenges and has to encounter problems from time to time. We teach our students to persevere, use their intuitive capabilities of critical thinking and face such trials and tribulations with courage.

Going Beyond the Comfort Zone

By pushing students beyond their comfort zone, we encourage them to speak up and boldly ask questions. As a child masters his or her risk-taking ability, they will embrace learning new things rather than just being comfortable with what they are familiar.

Raising Confident Decision Makers

The ability to make decisions is not always inherent in individuals, but knowing how to assess situations, identify available options, and determine the needs of the circumstances are critical for children when they grow up. Our School of Excellence is committed to embedding practical and progressive learning of decision making throughout all grades.

Beyond Comfort Zone
Decision Makers

A CULTURE OF ETHICS & ETIQUETTE

Values are at the heart of everything we do at SSVM School of Excellence. Our children are the future, and we instill strong ethical and moral values encompassing honesty, kindness, determination, and tolerance in every pupil, creating a positive culture and promising future.

With due emphasis on discipline, cleanliness, and presentation, our pupils learn that their attitude towards life and learning after school is a vital quality to success. Our outstanding teachers and highly experienced academic staff will create a respectful learning environment for pupils where they can think critically, excel, as well as become thoughtful and empathetic global citizens.

AFTER SSVM SCHOOL OF EXCELLENCE...

Our pupils typically leave SSVM with a profile enabling them to attend elite institutions in India and around the globe. They also leave SSVM with a profound respect for learning in life and for the world beyond schooling. Our children graduating from School of Excellence can look forward to their next steps knowing they have had exceptional opportunities to explore and experience one of the top leading institutions in India.

WHY CHOOSE NIOS ?

You can enjoy a stress free schooling

You can nurture your talented child in sports, arts etc. without compromising their schooling

If your child has learning difficulty... Now things have become easy

Your child can easily prepare for IIT JEE, NEET, AIIMS

You can be proud of your child's high percentile!

Expand your child's learning outside the school

You can help them develop vocational skills

Enhance your child's creativity

It will boost your child's confidence & individuality

Most importantly, your child will learn time management and a balanced life
